in september of 1976 a group of some fifty scholars and practising mystics gathered at the university of calgary the chief objective of the conference was to ponder and assess the nature of mysticism in its eastern western and north american indian forms the method the conference followed was somewhat unusual in that it aimed at a dialogue between the practising mystics and the scholars what this book presents to the reader is not the outcome of the dialogue but the personal statements and papers from which the dialogue began of course there is a degree to which the dialogue is already present in that the papers of the scholars were written with the statements of the mystics in hand among some of the philosophers present a set of more formal comments on each others presentations was recorded and these have been included

this invaluable anthology examines histories of esotericism mysticism and occultism in modern asia understood here as the period roughly stretching from the late nineteenth through the twentieth century and paving eventually the way for the so called new age the idea of histories in plural has to do with the complexities of their lineages the many pathways through which their affinities encounters and entanglements flowed and or developed during the period under review the contributors hail from different disciplines history literature and religious studies for instance and in what accounts for a cutting edge of the book provide truly multidisciplinary insights on the subject in one single volume their select case studies illuminate key aspects of contemporaneous socio religious processes they explicate how aspects of mysticism esotericism and occultism were closely tied to wider socio political and intellectual processes of the period that were at once transregional even global and frequently transcultural and or cosmopolitan in character postgraduate students research scholars and academics in general working in the fields of religious studies and or asian religions in modern times will find this collection to be of great interest

a survey of the evolution of esotericism in south east asia from 1400 1600 in the peninsula of malaya this book equips the novice on south east asian religion and magic with a basic understanding of sufism wizardry and sorcery in the minimal and how the esoteric dimension of it all came into being the works and scholars included or mention are ibn arabi ibn sinna imam surawardi the wali of al rahman as well as many others the book examines at length the archetypes of shaman cunning man witch sorcerer dokun wizard and sufi sage and of course the differences in the sufi saint and the malay sorcerer this is done unbiasedly in order to understand how the mistake of syncretism has effected the views people hold of the malay mystics and sages in general this is examined exclusively from 1400 to 1600 bce the result may surprise

centering african diasporic traditions the margins of mainstream mystical traditions and the intersection between mysticism and psychedelics the essays in this volume offer several diverse and unique contemporary approaches to the study of mysticism in a time when the word mystic or mysticism appears as often in popular and even scientific settings as it does in academic or religious discourse a critical study of these terms and traditions becomes ever more relevant this volume challenges normative notions of who counts as a mystic and questions the definitions and interpretive frames underlying the field of comparative mysticism itself this is an important text for students and scholars of comparative mysticism and those interested in what traditions texts communities rituals persons and practices have been marginalized in the development of what counts as mysticism today

this is the fourth volume in an influential series that presents a basic revaluation of the nature of mysticism each provides a collection of solicited papers by noted experts in the study of religion this new volume will explore how the great mystics and mystical traditions use interpret and reconstruct the sacred scriptures of their traditions

this book presents key psychoanalytic theories from a fresh perspective that of the mystical element the author explores the depth structure of central assumptions in psychoanalytic theory to uncover the mystical core of conventional analytic thinking exploring authors from freud and ferenczi through bion and winnicott to contemporary voices such as ogden bollas and eigen the book shows that psychoanalysis has always operated on the assumption of psychic overlap a soul to soul contact between patient and analyst surprisingly the book shows how this magical facet goes hand in hand with a pragmatic worldview that explores the epistemological complexities of psychoanalysis in search of a way to join the subjective even the mystical with the practical aim of serving as a validated mental health discipline this is accomplished through an interdisciplinary and intertextual encounter between psychoanalysis and the innovative pairing of william james pragmatic philosophy and martin buber s dialogic thought the author s paradoxical stance surrounding the nature and role of psychoanalysis and its mystical facet resonate the great challenge embedded in winnicott s insistence on tolerating paradox and bion s demand to respect all parts of the psychoanalytic truth in this case the practical and mundane alongside the mystical and magical the book s broad interdisciplinary outlook will captivate both psychoanalysts and psychoanalytic therapists as well as scholars of philosophy

werner packull delineates more clearly than any previous scholar the theological and spiritual differences between south german and swiss anabaptist he examines thoroughly the dominant medieval mystical influence in the thought of denck and hut and the latter s immediate south german anabaptist followers indeed packull decides that south german anabaptism derives more from medieval mysticism than from the reformation packull is convincing in his demonstration of this thesis because of his meticulous care in reading the primary sources and because he examines and refutes the arguments of those who would place the protestant influence as the primary one he carefully isolates and explains particular ideas of the medieval mystics and demonstrates their influence on denck and hut packull expands and elaborates the earlier suggestions of kiwiet and williams both of whom postulated a discrete anabaptism in south germany as against that of switzerland he draws on the more recent and still unpublished work of gottfried seebass especially on seebass selection of writings which he ascribes to hut packull s second major thesis is that the earliest form of south german anabaptism was transitional both sociologically and theologically he demonstrates that there were indeed strains of anabaptism which were not as clearly biblicist in emphasis as the one in zurich packull s work makes the phenomenon of early anabaptism more complex less uniform but historically more accurate more in line with the realities of the religious ferment of the 1520s among german speaking people publisher
